Résumé

experience

Junior Software Test Automation & Quality Engineer · Sompo Sigorta

2026.08 → now

Full-time

Student Research Assistant · BFRC — Bahçeşehir University Financial Research Center

2025.01 → 2026.06

Part-time

- Authored data-driven articles on economic expectations and market trends for the periodic economic bulletin.
- Collaborated on faculty-led research projects, translating complex macroeconomic data into actionable insights.

internships

Business Analyst · Ödeal

2026.04 → 2026.07

- Prepared and reviewed Business Requirements Documents (BRDs) for process improvement initiatives, including Odoo ERP customizations.
- Managed UAT scenarios, evaluated user feedback and supported validation of internal/external applications.
- Conducted departmental needs analysis and prepared functional drafts for digital workflow optimization.
- Worked with business and technical teams in an Agile environment using Jira and Confluence for requirement tracking and documentation.

Software Engineer · Kontrolmatik Technologies

2025.09 → 2025.12

- Co-engineered a real-time IoT dashboard using ThingsBoard to visualize critical sensor data.
- Prototyped a responsive mobile app interface with Flutter, prioritizing UI/UX best practices.
- Optimized ML workflows for an AI-based camera recognition system, boosting data processing efficiency.
- Curated and annotated a 4,000+ image dataset in Roboflow, directly improving model accuracy.

Project & Service Management · Eclit

2025.04 → 2025.08

- Coordinated service delivery for 30+ corporate clients, strictly adhering to SLAs and ensuring satisfaction.
- Streamlined project lifecycles by optimizing task tracking and standardizing documentation for management.
- Analyzed business processes to identify bottlenecks and enhance operational workflow.
- Managed incident resolution via ConnectWise, ensuring high data accuracy in project ticketing.

IT Governance · Sompo Sigorta

2024.09 → 2024.10

- Contributed to feasibility analysis of enterprise-level AI projects within the IT governance framework.
- Facilitated meetings to align departments with digital transformation protocols.
- Conducted research on Artificial Intelligence technologies and presented actionable insights to IT team leaders.

education

B.Sc. Computer Engineering (English)

2022 → 2026

Bahçeşehir University · GPA 3.27

Minor in Economics (English)

2024 → 2026

Bahçeşehir University · GPA 3.50

programs & seminars

- YÖK Data Analysis School — Artificial Intelligence Department
- TÜDEB & Marmara University “Fintech Apprentice” Program
